

Dowels

Wood Dowels (fluted)

- Fluted dowels allow the glue to distribute evenly over the entire surface
- Are suitable for non-glued applications in combination with mechanical fasteners
- Application:
 - Glued case connections
 - Non-glued connections in combination with mechanical fastener

Material: kiln-dried hardwood

Fluted – metric

Pre-glued multi-grooved (fluted) wooden dowel

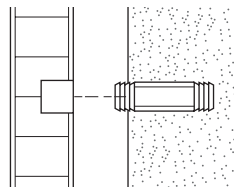

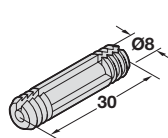

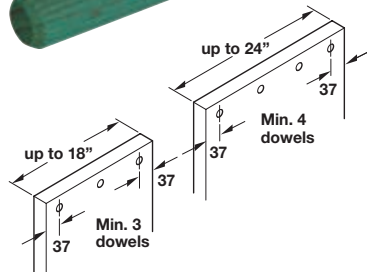

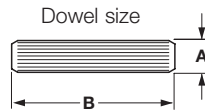

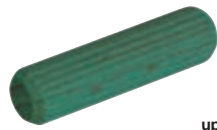

- 100% glue coverage creates superior holding strength
- Eliminates clean up time on your product during and after assembly

How to Use a Pre-glued Dowel Pin

- Simply replace your glue with water
- Fill approximately 1/3 of the hole with water and insert dowel
- A spray mist bottle can also be used by holding the nozzle next to the hole, and spraying 1 or 2 times before you insert the dowel

Material: kiln-dried hardwood

Fluted Pre-Glued – metric				
A x B	Item No.	Packing	Bulk Item No.	Packing

8 x 38	267.84.238	1,000	267.84.238.BB	15,000

"EXACT" Connector

- For solid and detachable connections
- Made of high grade, high-impact plastic for invisible and corrosion proof connections
- The tooth-like grooves of the dowels guarantee a tight fit even without glue
- EXACT dowels save labor on ceiling, door and wall paneling as they can also be driven into brick and concrete

Material: plastic; Color: white

Length	Item No.
8 x 30 mm	267.70.700

Packing: 1000 pcs.

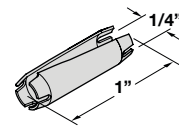

Compression Dowel

- Open on both ends
- For quick and easy attachment of trim parts
- No glue or clamping needed
- To aid as a clamping device while the glue on wooden dowels sets
- Can also be set in grooves for lineal adjustment

Material: steel

Color	Item No.
black oxide	267.74.300

Packing: 10000 pcs.

Note:

The diameter of the compression dowels refers to the drilling diameter. Since the dowels are under tension, they are slightly bigger in diameter.

Dimensions in mm
